The Division of Endocrinology, Diabetes, and Metabolism at the University of Pittsburgh seeks MD or MD/PhD board-certified endocrinologist for full-time, tenure stream, academic faculty positions (Assistant to Full Professor) in the fields of endocrinology, diabetes, and metabolism. Translational, clinical, epidemiological, and health outcomes researchers will be considered. Physician scientists and candidates with cross/multidisciplinary research programs are particularly desirable. Successful candidates will have a history of academic research scholarship, a strong publication record, and a demonstrated capacity to secure external research funding from government, foundation, and/or industry sources. Leadership experience is highly desired as this position has strong potential to develop into a substantial leadership role.

The University of Pittsburgh and its affiliated Medical Center (UPMC) are leaders in biomedical research, education, and clinical care. As evidence of its academic and research excellence, the University of Pittsburgh has been consistently ranked in the top institutions in the nation for research funding from the National Institutes of Health. Research in the fields of obesity, diabetes, and metabolism are particularly strong. Multidisciplinary collaborative research in these areas is facilitated by Institutes and Centers that cover virtually all aspects of metabolism including the University of Pittsburgh's Diabetes Institutes (UPDI), Bariatric Surgery Center of Excellence, Center for Metabolism and Mitochondrial Medicine, Healthy Lifestyles Institute, Vascular Medicine Institute, Aging Institute, and Liver Research Center, among others.

In addition to the above research strengths, the research mission is further supported by T32 training programs funded by the National Institutes of Health. This includes the highly successful T32 training program in Endocrinology and Metabolism, which has been in place for over four decades. Together, these resources provide a rich environment for research, training, and academic excellence.

Successful applicants will receive a primary appointment in the Division of Endocrinology within the Department of Medicine. The academic appointment at the University of Pittsburgh will be commensurate with experience, training, and achievement. Interested candidates should send a cover letter, curriculum vitae, and contact information for three references to Erin E. Kershaw, MD, Chief of Endocrinology, care of Chelsea Dempsey (email: endoadm@pitt.edu).

The University of Pittsburgh is an Affirmative Action/ Equal Opportunity Employer and values equality of opportunity, human dignity and diversity, EOE, including disability/vets.
